Experience

CS Configuration Management Intern

May 2017–Present

Wheaton College Computer Science Department – Wheaton, IL

- Implemented SaltStack as a configuration management system for the Computer Science lab.
- Collaborated with the Computer Science lab system administrator using git, Bitbucket, and Trello.

Student Tech Supervisor

January 2017–Present

IT Support Technician

October 2014–January 2017

Wheaton College Academic and Institutional Technology – Wheaton, IL

- Responsible for supervising, training, and assisting student techs at the IT service desk.
- Provided technical support for faculty and students over the phone, through email, and in person.
- Worked with customers to troubleshoot and resolve hardware, software, and network issues.

IT Developer

September 2016–Present

Wheaton College Academic and Institutional Technology – Wheaton, IL

- Created a dashboard web application to display system statuses, messages, and appointments.
- Developed scripts to automate support procedures commonly performed by service desk techs.
- Integrated the support scripts with the service desk's remote desktop software.

Student Programmer

August 2016–Present

Wheaton College Buswell Memorial Library – Wheaton, IL

- Created responsive web applications using HTML/CSS, SCSS, Bootstrap, JavaScript, and jQuery.
- Used PHP, MySQL, and Apache for backend development and Ajax to coordinate with frontend.
- Contributed to the open source project for the library's electronic resource management system.

Software Deployment Intern

May 2015–August 2015

Wheaton College Academic and Institutional Technology – Wheaton, IL

- Created software packages for deployment to all domain-managed computers at the college.
- Developed scripts using Batch and VBScript to automate the installation of software packages.
- Managed campus computers using Microsoft System Center Configuration Manager 2012.
