Experience

CS Configuration Management Intern

May 2017–Present

Wheaton College Computer Science Department – Wheaton, IL

- Implemented SaltStack as a configuration management system for the Computer Science lab.
- Collaborated with the Computer Science lab system administrator using git, Bitbucket, and Trello.

Student Programmer

August 2016–Present

Wheaton College Buswell Memorial Library – Wheaton, IL

- Created responsive web applications using HTML/CSS, SCSS, Bootstrap, JavaScript, and jQuery.
- Used PHP, MySQL, and Apache for backend development and Ajax to coordinate with frontend.
- Contributed to the open source project for the library's electronic resource management system.

Student Tech Supervisor

January 2017–August 2017

IT Support Technician

October 2014–January 2017

Wheaton College Academic and Institutional Technology – Wheaton, IL

- Responsible for supervising, training, and assisting student techs at the IT service desk.
- Provided technical support for faculty and students over the phone, through email, and in person.
- Worked with customers to troubleshoot and resolve hardware, software, and network issues.

IT Developer

September 2016–August 2017

Wheaton College Academic and Institutional Technology – Wheaton, IL

- Created a dashboard web application to display system statuses, messages, and appointments.
- Developed scripts to automate support procedures commonly performed by service desk techs.
- Integrated the support scripts with the service desk's remote desktop software.

Software Deployment Intern

May 2015–August 2015

Wheaton College Academic and Institutional Technology – Wheaton, IL

- Created software packages for deployment to all domain-managed computers at the college.
- Developed scripts using Batch and VBScript to automate the installation of software packages.
- Managed campus computers using Microsoft System Center Configuration Manager 2012.
